

## Xcluder™ Night Guard™\*

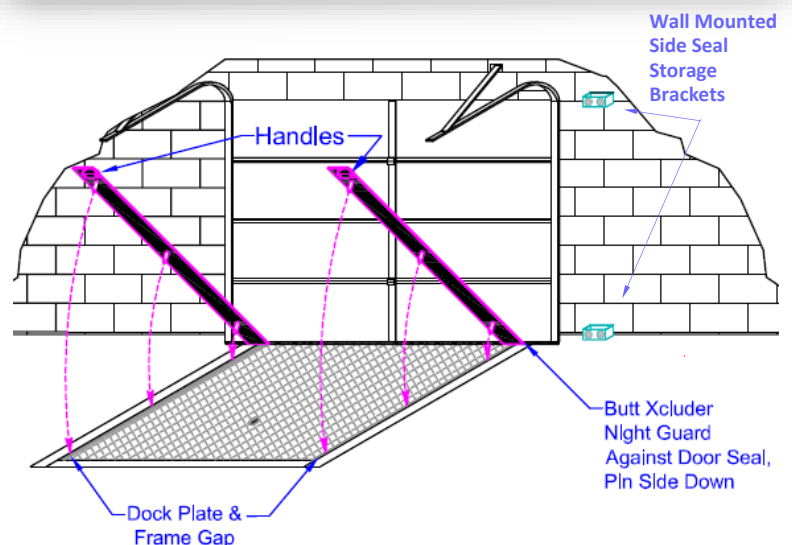

*Easy to Install Rodent Protection for Dock Levelers*

**Ideal for: Food Processing Facilities Storage and Warehouse Facilities Food Distribution Centers Grocery Stores Pet Stores Supercenters Any location that requires reduced or eliminated chemical pest control**

The gaps around unprotected dock levelers are an open door for rodents and other pests to enter your facility. Until now, sealing those gaps was expensive and time consuming.

**Xcluder® Night Guard** Dock Leveler Seals are a fast and easy to implement solution. Simply place the Night Guard seals on each side of the leveler when it's not in use. Night Guard is constructed using solid steel and our patented **Xcluder** fill fabric gasket. This combination provides a barrier that is virtually impenetrable to rodents and other pests. When the dock is in use, simply place **Xcluder Night Guard** in the wall mounted storage brackets.

*For complete pest protection of your entire facility, we recommend you install **Xcluder™ Door Bottom Seals and Xcluder™ Door Sweeps** on all dock and access doors.*

### Features

- ◆ Can be installed and/or removed in seconds
- ◆ Fits most common leveler sizes
- ◆ All steel construction with Xcluder gasket fabric
- ◆ Stands up to forklift traffic
- ◆ Welded positioning pins to ensure correct placement every time
